Operation Checked Devices

We have confirmed the operation of the SoroTouch app on the following devices.   March 30th, 2024 Revised Ver.

The latest devices and devices not listed below have not been confirmed to work, so please be aware that the app may not function.

Since there is only one device / OS manufacturer, and there are only a few confirmed devices, we recommend using SoroTouch on iPad.

※Even if the device is listed below, the app may not function temporarily. In this case, please try restarting the application or device, freeing up memory, and checking the data availability.

※Changes are made from time to time due to application and OS updates. We do not individually answer the plans on adding devices.

iPadOS

Required environment: iPadOS13.0 or later

Device Name (Operating iPad OS)	Operation Guaranteed Devices (Latest and previous version)	Usable Device (Other listed on left)	Supplementary Information
iPad	5th Generation~	-	
iPad Air	3nd Generation~	2nd Generation	
iPad mini	5th Generation~	4th Generation	
iPad Pro	ALL	-	12.9 inch model is not recommended due to the large screen size.

※If you are considering to purchase a device, we recommend you to purchase the latest device as possible for the spec matter.

【Regarding iPadOS support】

※Based on the iPadOS version that works, the device is classified as an operation guaranteed device, a usable device, and an unusable device.

※Regarding usable devices, some functions may not be available as long as it does not affect the learning. Unsupported functions will be announced. Also, it may be classified as an unusable device after a notice period of 180 days or more.
